Supervisor Burke made the following statement:

“Our County parks, playgrounds, ball fields, nature trails, open spaces, community and cultural centers make a community attractive and desirable places to live work, play and visit to contribute to our ongoing economic vitality. Parks, recreation activities, and leisure experiences also provide opportunities for young people to live, grow and develop into contributing members of society as well as providing outlets for physical activities, socializations and stress reducing experiences.

“Parks and recreation fosters human development thereby helping young people to develop and grow into healthy adults through a focus on the Healthy Parks Program that encourages good nutrition and an active life style.

“The parks and recreation profession in Los Angeles County is dedicated to its mission to ‘Create Community Through People, Parks and Programs.’”

Therefore, on motion of Supervisor Burke, seconded by Supervisor Antonovich, unanimously carried (Supervisor Molina being absent), the Board declared “July is Parks and Recreation Month” throughout Los Angeles County, and urged all residents to enjoy and recognize the social, physical, mental, economic, environmental and community benefits derived from County parks.
